

Advanced technologies, materials and  
concepts for silicon solar cells and modules

April 8 – 11, 2025 | Oxford, UK

# Become a Sponsor

Join the SiliconPV 2025 Conference and nPV workshop as a Sponsor!

**SiliconPV** is a well-established and world leading event in the PV community, gathering some 300 attendees from all over the world, including students, scientists, technologists, and PV experts from industry every year.

Becoming a **SiliconPV** sponsor enhances your company's visibility, credibility, and strategic positioning within the industry, highlighting your presence as an active player in the field. We offer several sponsorship opportunities helping you find the most effective way to connect with attendees.

*Sponsorship boosts your firm's visibility, builds loyalty, and shows your commitment to the photovoltaics community. Secure your sponsorship advantages now!*

This is what makes your sponsorship worthwhile:

#### Visibility and Recognition

Almost **3,500** newsletter subscribers, coming from more than 1,000 institutes world-wide

#### Leadership and Expertise

**174** international institutions presented their research during the SiliconPV Week in 2024

#### Networking and Engagement

About **300** participants per year benefit from scientific exchange and expand their network during social events

#### Image and Reputation

The event is supported by the leading European PV institutes

*Take advantage of new ways of networking and profit from the opportunity to interact with a global and future-oriented audience.*

#### Our Participants:

Junior and senior researchers and academics from leading institutes and universities

R&D experts, technologists, and engineers of the major PV companies worldwide

Industry decision-makers and project developers

Representatives from companies at every level of the supply chain

We look forward to working with you!

## About the SiliconPV Conference and nPV workshop

Running for over a decade, the **SiliconPV** Conference has emerged as the premier global event for crystalline Si-based photovoltaics. Showcasing cutting-edge scientific and technological insights, **SiliconPV** continues to facilitate networking and enhance the visibility of our sponsors.

The **SiliconPV** Conference is pivotal for accelerating the energy transition, offering affordable, manufacturable solutions for widespread adoption. **SiliconPV** drives innovations essential for large-scale PV deployment, spanning materials, modules, and addressing key aspects like reliability and sustainability.

The conference prioritizes tackling challenges associated with TW-scale manufacturing and highlights advancements in tandem and multijunction PV technologies.

Furthermore, the **SiliconPV Conference** maintains collaborative ties with **nPV workshop**, creating a consolidated platform for knowledge exchange. The nPV workshop provides a comprehensive overview of emerging trends, innovations and developments in n-type technology.
